▶ **NeoMPS has become part of the PolyPeptide Laboratories Group**

We are pleased to announce that effective November 19th 2007 NeoMPS has become part of the PolyPeptide Laboratories Group, further expanding the combined Group's leadership in the peptide industry.

The addition of NeoMPS to the PolyPeptide Laboratories Group benefits customers of both companies by further increasing the Group's manufacturing capacity and bolstering our ability to provide you with an even wider range of robust, scalable and cost-efficient peptide manufacturing solutions, from small-scale custom peptides and early-phase non-GMP development to large-scale GMP-grade peptides for therapeutic applications.

It is important to note that the acquisition will not affect ongoing activities at any of the PolyPeptide Laboratories or NeoMPS facilities. There will be no change in the location of ongoing projects or in the services expected. Harmonization of procedures to ensure consistency, continuity, and quality within the expanded Group will be implemented in a manner that is seamless to our customers. Please feel free to contact your local representative if you have any questions.

As always, we are committed to providing the uncompromising quality, service, support and innovation you have come to expect from PolyPeptide Laboratories and NeoMPS. We look forward to continuing to earn your trust while serving as your peptide partner of choice.

Sincerely,

Serge PLAUE, Ph.D.
General Manager, NeoMPS

Jane SALIK, Ph.D.
CEO, PolyPeptide Laboratories Group
